

Sleep First Class

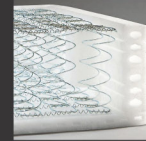

**THE
ENHANCE
COLLECTION
HAS ARRIVED**

SRx^{II}® Titanium

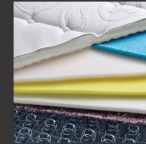

The **SRx^{II}® Titanium coil** support technology system is the only one of its kind providing the initial conformance and deep-down support you would expect from the Sealy Posturepedic Enhance collection.

Alternating coils increase lateral stability and is designed to reduce horizontal movement.

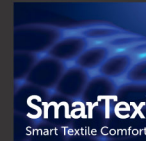

UniCased[®] XT

Sealy's most innovative edge support system, **UniCased[®] XT**, encases and locks into the spring unit for exceptional stability, a wider sleep surface and minimised partner disturbance.

ComfortCore[®]

The centre third of the mattress is enhanced with the **ComfortCore[®] Plus**, a layer of gel-infused visco elastic to provide superior conformance and alignment to the lower back.

SmarTex[®]

Regulate sleep surface temperature throughout the night, giving you a comfortable sleeping environment.

10 Year Guarantee

Sealy Posturepedic Enhance offers long-lasting performance and comfort life.
