Therapeutic Texture Latex

Latex is a natural hypo-allergenic material with global recognition. Besides this anti-allergens and dust mites feature, Sleep-Matics latex mattresses are also designed with therapeutic texture, assures optimal orthopaedic support in any sleep position with cooling comfort.

Sustainable Production

Besides using the eco-friendly materials such as natural latex, Sleep-Matics also cares about the livings and practices sustainable production including using the energy saving machineries.

DuraCoil® Parallel Pocketed Spring System

Extremely Durable

All our spring coils are carefully heat-tempered by automated United States machineries hence they are extremely durable.

Less Disturbance

The spring coils are also being isolated by individual pocket wrap, which resulting less partner's disturbance.

Super Strength

We make sure all of our DuraCoil® are tested to provide you and your loved ones a super strength and comfort elastic sleeping support.

duracoil®
TECHNOLOGY

Sanitized® Actifresh

Antimicrobial Protection

The Sanitized® hygiene function has been dermatologically tested and prevents the formation of microbial by 99%*! It is permanently fixed on the fiber, hence extra durable and sustainable effectiveness.

*Based on Sanitized AG Laboratory Test

Safe for man & environment

Rest assured with Sanitized®. Our function supports hygiene, prevents material damage, and is highly effective in protecting mattresses and protective mattress covers against dust mites and bacteria. Sanitized® is easy on the skin and safe for man and the environment.

Active Fresh & Comfort

You can breathe easily and relax with the Sanitized® hygiene function. It ensures long-lasting freshness and comfort in your bed linens by hindering the reproduction of dust mites and their allergens.

Your mattress is a playground for allergens

Do you know that mattresses with high level of moisture can often provide an ideal environment for allergens like dust mites to multiply and spread?

Keeping your mattress fresh and clean with antimicrobial protection is essential, especially for allergy sufferers. Antimicrobial is a substance or material that kills or inhibits the growth of microorganisms like bacteria, fungus, or dust mites.

Sanitized®, being the Swiss antimicrobial expert since 1935 has proven that all Sleep-Matics mattresses foam are equipped with Sanitized® solution that able to reduced microbial in 99%*! It has also been certified as more comfort and longer lasting freshness, with sustainable effectiveness.
